Sample S320733
7.25 grams per tonne Gold
9.46% Copper
20cm wide massive sulphide vein
Outcrop
Monster Property - Goliath Zone

Sample S320733
7.25 grams per tonne Gold
9.46% Copper
20cm wide massive sulphide vein
Outcrop
Monster Property - Goliath Zone

A photograph of a rock outcrop showing a massive sulphide zone. The rock is dark grey to black, with a rough, fractured texture. It is surrounded by lighter-colored, more crystalline rock. The sulphide zone is prominent in the center and left side of the image. The text in the top right corner provides sample details.

Sample S320730
2.27 grams per tonne Gold
11.85% Copper
Massive Sulphide in Outcrop

Sample S320730
2.27 grams per tonne Gold
11.85% Copper
Massive Sulphide in Outcrop

Sample S320730
2.27 grams per tonne Gold
11.85% Copper
Massive Sulphide in Outcrop
